

# "I ONLY PLAY ONE GUITAR... I ONLY ENDORSE ONE GUITAR."

STEVE LUKATHER

"When your guitar feels like it's part of your body, you know you've got the best you can hope for. The music comes straight out of your soul.

Your guitar is an extension of your personality. When I get inspired on-stage, I've been known to throw my guitars around or bang them on stage while I'm playing - I don't edit what I'm feeling. A guitar has to respond to you musically *and* physically. Valley Arts does both."

The Valley Arts Steve Lukather Signature Series is a classic hallmark of the fourteen year relationship

between Steve and Mike McGuire of Valley Arts. Developed and refined over the last year, each guitar is hand-built in our own shop to present the musician a clearer path to self-expression. The quality is second to none. Just ask Steve.
