

The Kind Of Player That Owns A Valley Arts Custom Pro Isn't Mass-Produced Either.

The Valley Arts Custom Pro is a great guitar in the tradition of great guitars...and great guitarists. Every conceivable detail has been attended to with out compromise. The Custom Pro is the ultimate symbol of an artist in pursuit of self-expression.

Exciting woods with a variety of sonic qualities, custom-designed bodies and necks with a choice of scale lengths...the most sophisticated active or passive electronics...and the finest finish available on any guitar.

The Custom Pro embodies everything we have learned in twenty years of working with the top musicians in Los Angeles and around the world. We feel the Valley Arts Custom Pro is more than just a tool of the trade; for us it represents the pride of the artisan who lives within us all.
