# Valley Arts Guitar Announces Four Ways To Beat The Coming Recession.

Here's how to turn the financial world's big downbeat into a happening uptempo swing. Introducing the all new **Valley Arts Standard Pro**. You might call it the truly affordable alternative to our flagship Custom Pro. We do.

By design, we've incorporated many of the Custom Pro's most popular features... like our unique highly-contoured 7/8 solid maple body with 24 3/4" scale neck... or traditional full body size with 25 1/2" scale neck... the Valley Arts locking tremolo system licensed by Floyd Rose... and maple neck with a distinctive satin finish and rosewood fingerboard. All assembled in our own shop to assure the finest possible quality.

Check out the new Standard Pro at your nearest authorized Valley Arts Guitar dealer. The only thing you'll find standard about it is the price.

**Now available at select dealers worldwide.**
